Why Aspect?

Support for mobile customer service (mobile web portals or apps for customer service) is extremely important to their current or future business goals.

They also rated support for multi-channel customer service as extremely important to their current and future business goals.

Achievements

This professional services company lowered administration costs, application development costs and hardware costs, while achieving the ability to develop more innovative applications.

“[Aspect] allows our company to expand automated capabilities to offer to our customers.”

– **TechValidate Survey of a Large Enterprise Professional Services Company**

Aspect Self-Service

Aspect Self-Service solutions allow you to design apps once and deploy them on any channel – across IVR, text, social, and mobile channels.

Utilize the power of automation and natural language understanding (NLU) to increase first contact resolution rates without customers ever talking to an agent. Fully embrace the technologies consumers love. Deliver remarkable customer service in a world where people often prefer to help themselves. Transform simple one-way notifications into two-way conversations. Make it easy for customers who prefer texting over talking.
