Skype in a Box from Aspect

Save money and utilize Microsoft Office 365 as your phone system

Today's world requires effective communications to conduct business – it's what separates great companies from good ones. 79% of U.S. Enterprises are currently deploying or planning to deploy Skype for Business. Skype in a Box from Aspect provides a complete Unified Communications solution geared to small to medium sized businesses which is easy to deploy and cost effective.

Comprehensive Solution for Skype in a Box

As more customers migrate to the cloud and Microsoft Office 365, Aspect brings together a solution that allows businesses to access the full functionality of Skype in a Box, both in the cloud and on premise, to replace their legacy phone systems with a solution that accelerates implementation of a full Unified Communications platform.

Aspect brings together Microsoft-qualified end-to-end elements, extensive expertise, and world-class support to enhance Skype in a Box implementations while providing a future-proof platform that ensures reliability, security and scalability. In addition, Aspect offers contact center options, including Aspect® Zipwire™ as the no-hassle, easy-to-deploy contact center in the cloud that is also easy to deploy with this solution.

\$800

Amount Aspect saved per employee per year moving to Lync

14 Month

Payback period (ROI) for Lync customers
